I wish to make it to the NBA. Every time I try out for a team or play with friends they look at me as over average. I'm only 5'7 and can dunk a basketball!!!! Also I've been called over average in football to. I play the wide receiver position. My whole life revolves around the love of sports. My instagram and TikTok is starting to take off because my passion for sports and fashion, with my highest views on TikTok being over 40k and instagram over 2K!!! I feel like I can be a great addition to this program. Thank you.

Annabell Branson

Annabell is a fun and outgoing person! Not only off the field but on the field as well. This will make her 5th year playing for a Little League team and we just finished our first season with travel ball. She plays third base most the time and occasionally plays first. Third is where she feels most comfortable. She has said that she wants to play third base for UNC when she goes to college. She sometimes has trouble focusing sometimes due to ADHD but when she is on that field her mind is on that game! She loves the game and the people she plays with. I love to see the bond that playing softball makes in her life. Friendships that will last a lifetime. She hit her first home run and was so excited! The growth both on and off the field is amazing. She knows you might not win them all but as long as you give your best that's all that you can do. She truly loves the game and I can not wait to see what her future holds!

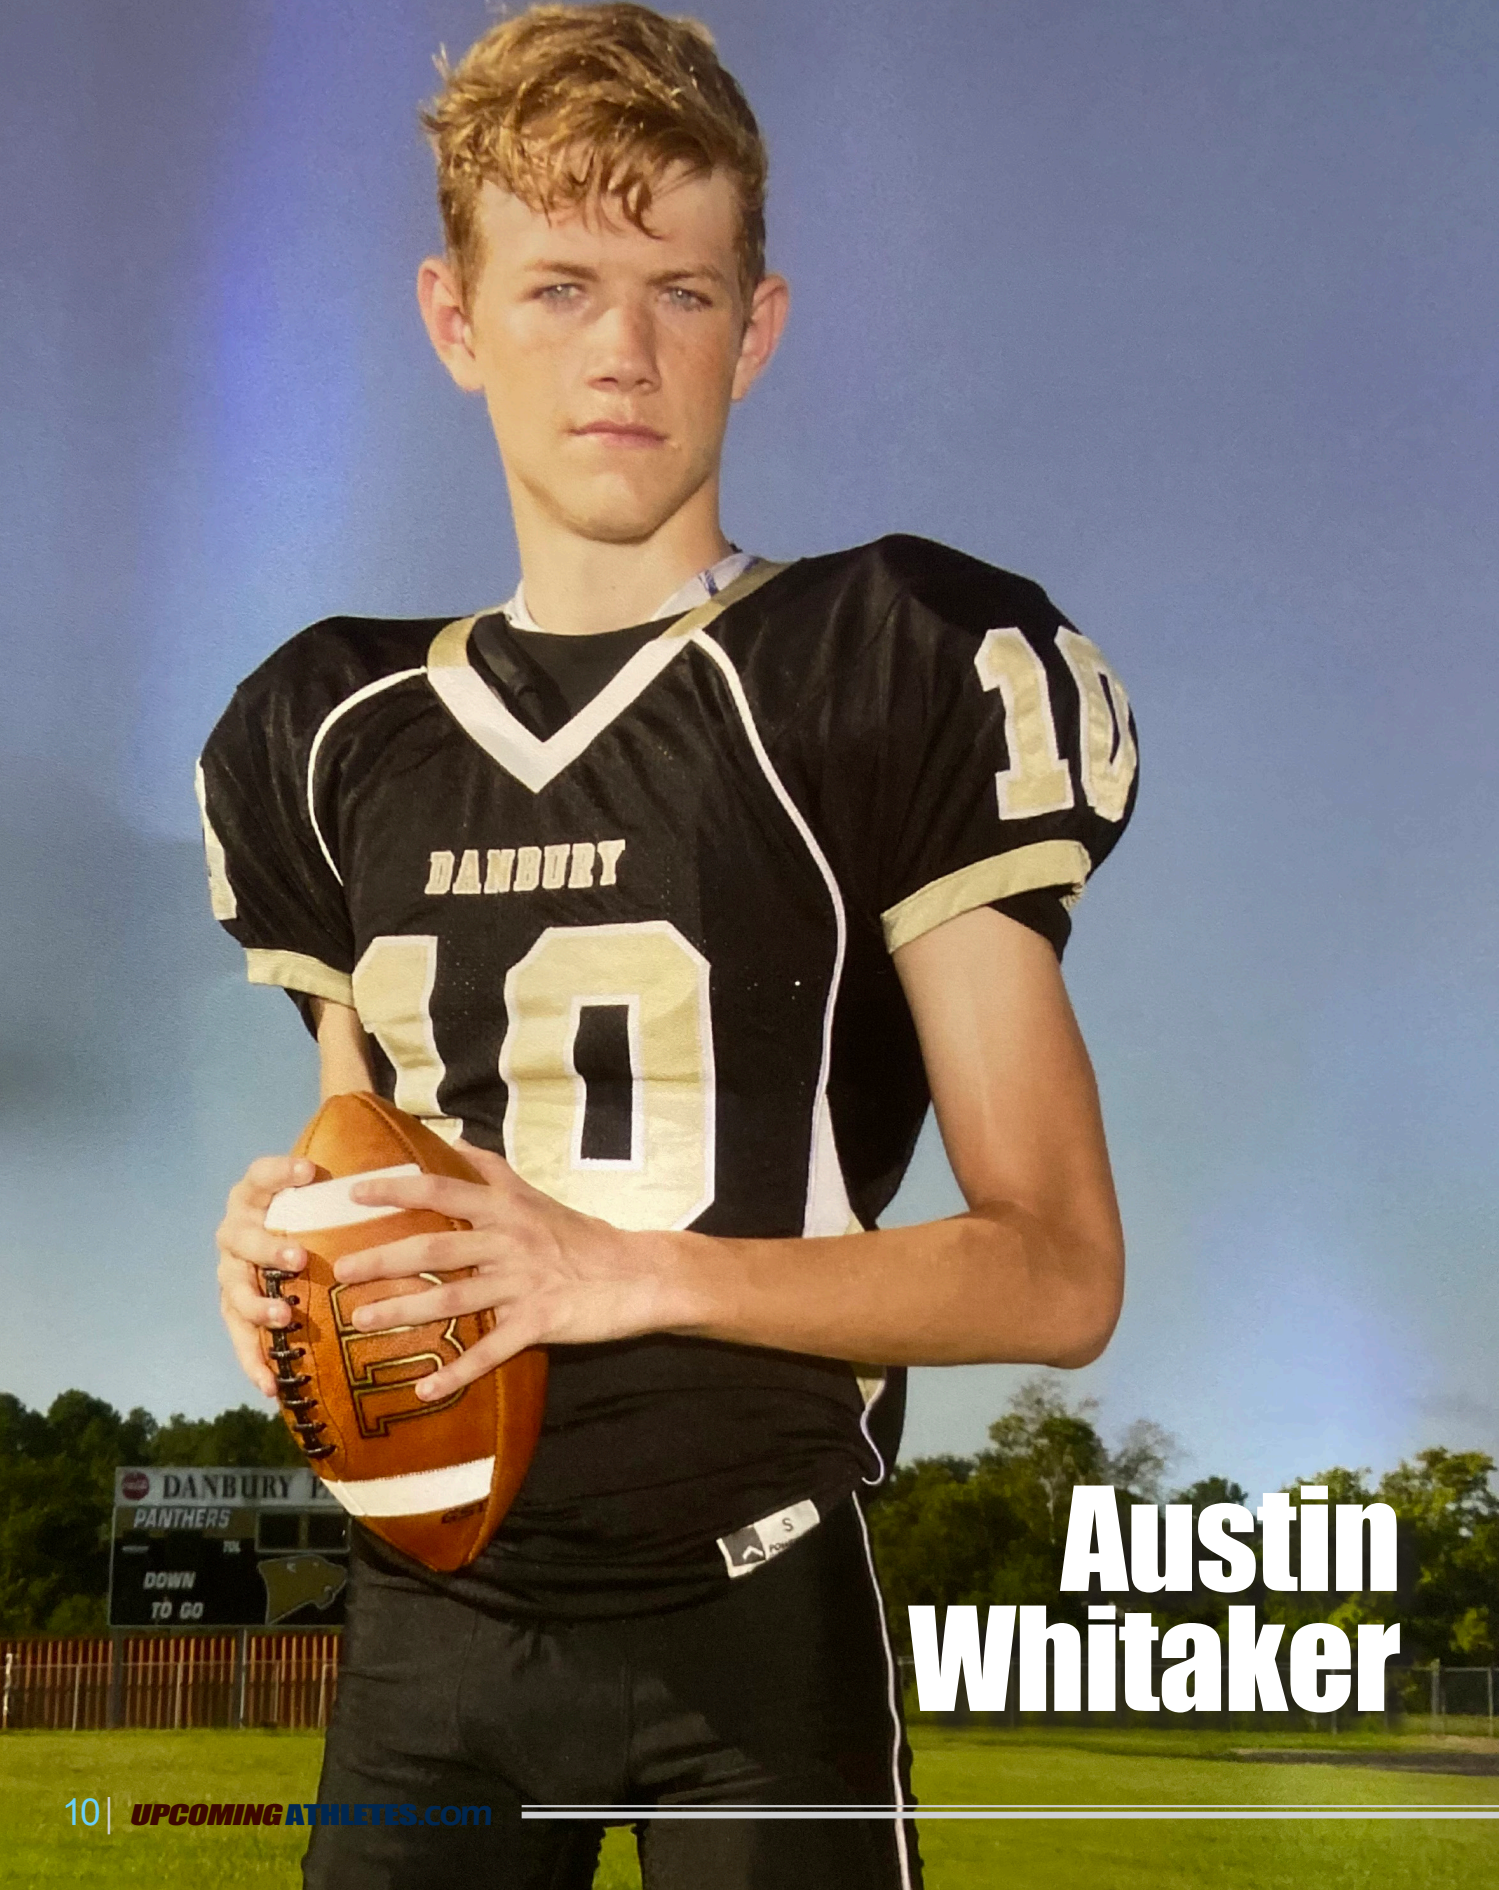

Anniya and DeAndre Bailey, siblings born 18 months apart, are upcoming athletes from Olive Branch, Mississippi. They are both basketball and track athletes. #baileykidstrack have participated in local, regional, and national track and field events, which opened their eyes to a bigger level of competition and encouraged them to broaden their level of work ethic on the track and court. They are also musicians, like their parents. Anniya Bailey is a 6th grade point guard for the AAU team, Elite Eagles. She is looking forward to playing on the girls basketball team at her school next school year, as she has been playing on the court

since the age of 5. She is known for her aggressiveness on the court while maintaining her femininity in character. She is also a regionally ranked AAU track sprinter in the top 10 for 100 meter dash and 400 meter dash. DeAndre Bailey, known as Dre Bailey, is an 8th grade point guard on Center Hill Middle School basketball team and AAU Team, The Elite Eagles. He is known for "raining threes" and using his explosive speed on fast breaks. He began his basketball journey at the age of 5 years old. Not only does he play basketball, but he is also a regionally ranked AAU track sprinter in the 100 meter dash (#1) and 200 meter dash

(#2). Anniya and Dre get their athleticism from their father, Demario Bailey, who was a record-breaking Wide Receiver and Point Guard from Fayette-Ware High School in Somerville, TN. Their father also founded the AAU Team, The Elite Eagles, which they play for. Like an eagle, they soar to achieve their goals by soaring over and above. Their goals for the future are to get basketball or track scholarships. Anniya hopes to major in Education. Dre hopes to major in Physical Education or Sports Management. The sky's the limit, as they keep God first and continue to work harder to be the best at what they do.

Cassidy Hutto

Cassidy is part of the White Knoll High School girls lacrosse team. She is the starting goalie at White Knoll and plans to play primarily as a defender in college. The team is going on its third year since being founded and their first year as a varsity team. She is one of the three varsity captains that were voted on by the players of 2019-2020 team for the 2020-2021 team. Although the team has only had two seasons (one being cut short due to COVID), she has excelled. After their first season she won the "Most Improved" award and her average save percentage is approximately 65%. Not only does

she play school lacrosse but she has played for multiple club teams over the past few years. These teams include, The Lake Murray Rapids, Inferno Lacrosse and a 7v7 club held by some of the previous Lake Murray coaches. While playing for Lake Murray, she met the women's head lacrosse coach for Brevard College. She has now committed to Brevard to play lacrosse and will be attending in the fall of 2021. One collegiate goal she has is to be one of the top three defenders on the team though she knows this will take time. A high school goal that she has is to bring more togetherness to the White Knoll

team via team bonding experiences and through community service opportunities. Another Goal would be to have a winning season for 2021. One challenge that she faces would be the lack of experience compared to most of her opponents. Having more experience is crucial because this means they have a higher lacrosse IQ, more skills and the ability to point out trick plays (or the lack of). This only makes her work harder and put more work in so that the experience gap is almost nonexistent. As she continues to play and grow as a player, she hopes to achieve these goals and create new ones on future teams.

Isaac practices nonstop, day and night. If it's 35 degrees outside, he is dragging me outside to play catch. This kid loves baseball! I cannot wait to see where this kid takes baseball! Love from his number #1 fan, mom

London is an incredibly talented athlete. His athleticism at such a young age is nothing short of remarkable. But most notable about London is his innate ability to lead a team. London is always leading his team toward success, taking on leadership roles, making tough decisions/calls, teaching his teammates new skills to not only be better athletes but better humans as well. Growing up as a black boy in a white world in rural Pennsylvania, London has learned that the world is tough and for him it will be even

tougher. Nothing is given to him on the field but must be earned through perseverance, patience and bringing his absolute best to every practice and game. He will always have to be better, be stronger, be faster in order to be given half of the opportunity that other athletes his age receive. This has built London's character, this gave him fight, courage and ambition. This made London become the best version of himself on and off the field. His passion, focus and drive led him to strive for excellency on and off the field. His feelings of

seclusion only made him become more compassionate and a true team leader and powerhouse. Whether he is helping his teammates off and on the field, kneeling with hurt opponents on the field or just doing what he does best FOOTBALLING, London shows up and shows off. London's dedication to football and to be the best that he can be is inspiring to not only his peers but also to everyone that knows him. He refuses to become a victim to what someone else thinks he should be. He will forever and always be #45.
