I enjoy playing tennis and learned how to play from a young age. My dream goal is to obtain a scholarship for a D1 college. I've faced many challenges and continue to work on what works for me. A few of my challenges in school is math and science. I sometimes don't understand the formulas and equations but I get help from my teacher and aunt. Challenges for me in tennis, to be more confident when I am on court, getting my serves down and being ready for the next shot. My

achievements, I am currently a straight A student and have perfect attendance. I love art and drawing and I am finally able to volley with confidence. I also wanted to be a part of my schools news crew and safety patrol and this year was able to achieve and be a part of both.
