My name is Makar. I'm 9 years old. I live in Ukraine, in the extraordinary and ancient city of Lviv. When I was 5 years old, my life changed. I got acquainted with tennis and this sport fascinated me. In September of this year, I became the absolute champion of my city in my age category. And now, I dream of trying my hand at the Ukrainian championship. My favorite tennis players are Nadal and Svitolina! I train a lot, but I still have a hobby - I do Ukrainian folk dances and I like to play the guitar. I believe that when you love what you do, you always succeed! They succeeded, I will succeed too!

My name is Eugene Campbell III. I am a 25 year old professional basketball player who dreams of one day playing in the euro leagues or on a national team in foreign country. I also have 3 degrees in psychology from

New Jersey city University including my associates bachelors and masters with a gpa of 3.8 and undergrad and 3.6 in grad school. I have played two years of professional basketball overseas so far one year in Moldova and I am currently playing in Armenia. I have achieved great success in the my first year in Moldova leading the country in scoring with 40 ppg. It was not easy to do but with the hard work and dedication that I put in I was able to make it happen. I am blessed to be able to play professional basketball coming from a struggle in my career growing up. I was cut from my high school team my freshman year of high school and the situation just made me a stronger person. Most 14 year old boys would have given up but I used it as fuel to make me work harder and make the team next year. The following year I was able to make JV and the next two years I played varsity. From there I kept elevating my game playing college and grinder to become a professional. Before signing my first professional contract I experienced a lot of rejections from teams and agents because of my lack of experience at the professional level. All I needed was someone to give me a chance and when that time came I surely took advantage of it and I am still playing basketball like I am striving for greatness every time I touch the court from start to finish. I want to be able to inspire those who have been counted out rejected and overlooked to never give up and believe in oneself because anything is possible as long as you work for you goals and stick to the commitment. The hard part isn't making it the hard part is excelling once you make it. It feels a lot worse to be at the top and drop them coming from nothing and making it. I hope others can read this a become inspired. Thank you.
